

AI Application Maturity

AI = Artificial Intelligence

INDUSTRY ▾

1

Preparation

Installing the systems needed to use AI; becoming aware of AI; talent that knows AI

NBIF'S SUPPORT ▾

STRATEGIC ACCELERATION INITIATIVE

\$1.2M

- Increasing AI expertise available
- Students trained via NBIF's Strategic Acceleration Initiative can fill new talent needs at companies implementing AI solutions

2

Problem Definition

Understanding how and if AI could help resolve a current business issue

PREVOUCHER

\$500K

- Used to help hesitant companies see how AI can solve their problems and thus why they should invest in AI adoption

3

Proof of Concept

Initial tests that demonstrate that AI can be used to resolve the business issue

LAB-TO-MARKET

\$500K

- Helps AI research at academic institutes be implemented in a commercial setting

4

Pilot Project

Showing that AI can be used to resolve the issue in an operational setting

INNOVATION VOUCHER

\$800K

- Used to help companies engage a researcher to take them from proof-of-concept through to ready to implement

5

Implementation

AI in use by the industry proponent, they have staff and systems in place to use it in an ongoing manner
